

# VENDOR WORKFLOW OPTIONS

Building Engines provides you with a simple way to virtually manage your vendors from both the web and mobile devices, allowing you to interact with a vendor company, or specific vendor employee instantaneously. Having an easy channel of communication and tracking saves time, money, and resources. When building teams know what is going on in real time, it reduces the amount of issues or potential risks flying under the radar.

Below are three work order workflow examples of how Building Engines' clients simplify and automate vendor management.

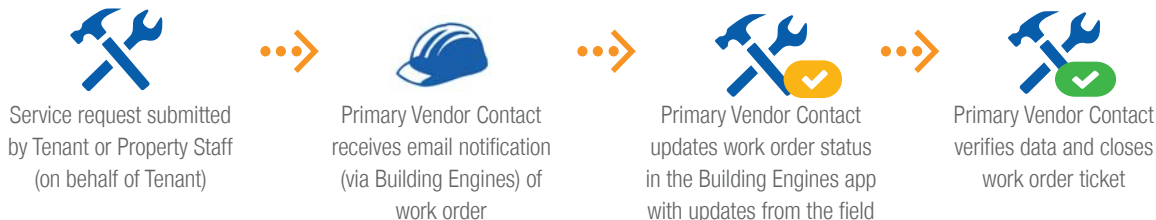

## All Vendor Employees Have Building Engines Logins

**Description:** The Self-Assigned Vendor Employee is responsible for managing communications and work order status updates for the lifecycle of the request.

## Primary Vendor Contact Has Building Engines Login

**Description:** The Primary Vendor Contact is responsible managing communications and work order status updates for the lifecycle of the request.

## Vendor Does Not Have Building Engines Login

**Description:** Property Management Team personnel are responsible managing communications with the Vendor Company for the lifecycle of the request.
